

Case Study Ventura

Overview

P&O Cruises Ventura underwent a major refit in Monfalcone, Italy. Launched in 2008, the cruise ship is one of the largest of the P&O ships carrying over 3,000 passengers.

The Arena Theatre is a large show-lounge and venue for West End review style shows, tribute acts, presentations and recently released films. The Headliners Theatre Company offers twice-nightly high energy performances.

Project highlights

Name:	Ventura
Location:	Dry dock
Project Type:	Stage refurbishment
Building Type:	Cruise ship vessel
Product Types:	Harlequin Cascade, Harlequin Marine

Case Study Ventura

The requirement:

Stage refurbishment and new stage surface.
Initial fit-out and re-fit of Main Stage, Explorers Lounge & Deck 5 Scenery Store.

The solution

Harlequin Cascade vinyl flooring was installed to the plywood sub-floor of the main stage and cut to fit around Serapid tracks, traps and stage lifts.

A special screed was laid directly onto the metal deck immediately below the main stage and Harlequin Marine was installed onto the screeded area, including the surface of the stage lifts.

Harlequin Cascade was installed onto the plywood surface of the fixed stage area and revolve stage extension of the Explorer Lounge.

Harlequin Cascade

- 1 Main Stage: 265m²**
- 2 Scenery Store: 109m²**
- 3 Explorer Lounge: 168m²**

Cross section of below stage storage area with stage lifts

Lift areas
